For the past 32 years the Bloomer Community Club has proudly continued the tradition of the Bloomer Community Fair. Each year we have improved the fairgrounds with building additions, horse arena and other needed maintenance.

As the fair continues to grow, we have come to a point where we have outgrown our FFA/4-H and youth exhibit buildings with the increase in exhibits and livestock. With that in mind and to take care of the needs of the youth exhibitors we have decided to add a new cattle building which we are very excited about.

The new building will house the cattle during the fair and will also be available for the FFA and 4-H clubs to host events from May thru September, it will enable us to hold the 1st Annual Meat Auction Sale during the Fair for the Youth Exhibitors and for the local businesses to be involved in. In addition, the new building will have a 15^{ft} lean to the length of the building to house other small animals during the fair, which will help us by eliminating the tents that are currently rented and used. The present cattle barn will be converted to a small animal building allowing the youth to exhibit a wider variety of livestock that we currently cannot house during the fair.

The new building will be 102 ft by 36 ft with a 15ft lean to.

Currently, the Bloomer Community Club, FFA and 4-H are planning different fundraising events to help with the costs involved in not only building the new building but to also cover the costs of pens and other items that will be needed.

As of October 17th we are in the process of having all of the excavating completed in order to be ready for construction to begin as soon as the frost goes out in the spring of 2023. This work is being completed through generosity of Chippewa Valley Excavating/ Damian Prince and Catalytic Combustion/Mark Ruff.

We have been able to purchase all building materials at cost through Northland Building/David and Jack Skaw along with an extremely low construction bid from Schindler Construction. Concrete and electrical work will be worked on in the coming weeks.

Our goal is to raise between \$98,000 and \$100,000. through donations and fundraising to cover the cost of the remaining construction and related expenses.

We are reaching out to you and your business today in hopes that you will agree this is a great cause and a new facility that you would like to be part of through a donation towards the construction.

If you are interested, please feel free to give me a call so that we can discuss options, naming etc. Any and all contributions will be appreciated by the Bloomer Community Club, Bloomer FFA, 4-H and Youth Clubs.
