

— BRANDS. SENIORS. FAMILIES.

Mother, business owner, adventurer. Together my husband Wes and I are raising our daughter in Bloomer and love supporting the local community. When we have free time together, we spend time traversing the Ice Age Trail, biking the Old Abe Trail, kayaking on the plentiful lakes in our beautiful area, grabbing ice cream and adventuring west where we are passionate about hiking in the mountains.

15 years I've spent documenting moments that mean the most! To say I'm passionate about telling stories would be an understatement. I guide clients through choosing locations, styling & bringing their vision to life whether that is for a business brand session, senior photos or family portraits. A session goes beyond perfectly posed angles. We're telling a story together. And YOUR story is unlike any others. I take care to document each story as I would my own.

I recently opened a small studio space in Bloomer that is available for sessions by appointment. I'm excited to have expanded my offerings to be able to photograph sessions year-round that I may not have been to otherwise during the winter months.
